Man in the mirror-Michael Jackson.

R.I.P

"As the Americans learned so painfully in Earth's final century, free flow of information is the only safeguard against tyranny. The once-chained people whose leaders at last lose their grip on information flow will soon burst with freedom and vitality, but the free nation gradually constricting its grip on public discourse has begun its rapid slide into despotism. Beware of he who would deny you access to information, for in his heart he dreams himself your master."

^Agreed with nothing being the best to listen to sometimes. That's very rare for me, but it happens sometimes where I feel like listening to nothing for whatever reason.
