Man With A Plan™ formulates a plan in his mind. He eventually escapes prison by somehow using spoons, toothbrushes, and a bottle of Root Beer. He then escapes to Antartica and starts a company selling pet penguins.

After Man with a plan makes enough money, he anonymously bails Gerald Out and both of them start a penguin-selling company where their only employees are penguins

Not long after, the posse of two are captured and thrown back in the clink by the combined efforts of Interpol, the FBI and CIA, MWAP and Gerald would be given a sentence of 30 years in a maximum security prison with no chance of parole, for their respective criminal records, escaping custody and repeated attempts at resisting arrest. They've truly failed this time.

We shift our attention to T368429, at a police officer named [Rupert Price](#), Rupert for short.

A timeline recorection brings us back to Rupert, before he was fucked by extraspatial forces for their amusement.

Rupert, although currently stationed in Arizona, partook in the raid of an apartment in Apache Junction that was purportedly occupied by a number of MWAP's accomplices. After several lengthy interrogations with the captured posse, Rupert and his colleagues contact the Honolulu Police Department about MWAP's whereabouts in Hawaii.

AT night when Rupert is at home there is a knock on the door which he answers. It was one of MWAP's accomplices they were offering 100,000 dollars in exchange for sabotaging the police investigation

Being the stoic Phoenix Police Department officer that he is, Rupert declines their request, while also pointing a Benelli M4 at the hooligan. The next day, him and several other officers track down and capture the accomplice, the same day MWAP is placed under house arrest by the Honolulu Police Department.

While under house arrest, Rupert's house explodes and he dies. Man with a plan<sup>tm</sup> encounters the police and they come after him. he quickly rights a will of his super secret fortune of one dollar and becomes self aware of the time loop of man. He makes the loop theory which inspires South Park to be created and Kenny to be created. The loop theory made Man with a plan<sup>tm</sup> rich and famous so he made the will to the next man 2 dollars instead of 1. Man with a plan<sup>tm</sup> thought that was really generous until his house collapsed on him and Man with a plan<sup>tm</sup> almost died.

Deer gets involved with A scandal because he wasn't actually a deer but was a human but is somehow a deer, resulting in his expulsion from the Tang dynasty.

Another timeline recorection reverses Rupert's death, and the apparent timeline discrepancy.

New Man #2568 floats through the void of spacetime, well outside any timeline.

There are too many timeline fractures, therefore the multiverse dies along with many people in it.

Luckily, Man #2568 (Now Man #0) finds another multiverse, but Soda is illegal now.

Man #0 finds himself in purgatory.

New Man #7659, he's currently in T84635, in the year 2564 and living on the moon of Lysia, one of humanity's last population hotspots in the lowest ebb of their once mighty civilization in this timeline.
