New Man wakes up, wondering what has happened and if it was all a dream. He is yet again questioned how he used the C205 TIME DISPLACEMENT UNIT. However, he knows he did no such thing, and that it is Forum 7 watching him and controlling himmmmmmmmm....

The thought police burst through the door of the man, for he has thought too much. Man disappears.

New man has to deal with old man's stupidity, the ground is shaking, buildings are falling, and the sky is falling. Man is trying to leave the timeline but f7 man doesn't let him, he says "a man must activate the C205 to control the timeline" man knows what he has to do, he takes the C205 with him out of the timeline because he slipped then he ended up no-clipping into the backrooms

forum 7 Man and Man go on a nice walk in the park together

A socialist republic in the southern parts of a vague North America analogue. It's territory is comprised of the former State of Kato Van and Kingdom of Radaa (Former Kato Vanian influenced state)

NS stats aren't representative of the country exactly, still working stuff out. Will be trying to answer certain forum stuff in accordance to what ruling socialists might pick

**tutto è possibile, Entro i limiti umani**

In Italian it means

Anything is possible, within our limitations

Or at least i hope that's what it means since these days you can't trust google translate. For all I know I could be saying "Your mother was a hamster and your father smelt of elderberries!" PS: If you get that reference then you are very cultured.
