Ōmiya is quite the learned leader. For example:

"The Ministry of External Revolutions is the delicious coffee cake, the Ministry of Foreign Affairs is handshake, the People's Armed Forces is the hidden gun. Those who are with us will be embraced, those who are neutral or different in ideals may be tolerated if they accept, those who actively oppose us will be firmly resisted."

"Always offer the coffee cake, but always prepare the gun. One can never be too kind, nor too cautious."

Holy shit they really *do* shit out conlangs.

EDIT: Dude, seriously, what the hell? I'm looking through these factbooks with my mouth agape. Ironically, *I have no words*.

EDIT2: I've looked through all of them. I just... I don't know what to say. This is *beyond* not only my understanding but even the capacity to *process* any of this. This is an astonishing amount of effort and probably took years of education and study of linguistics as a whole, several languages to the point of what must be fluency or near-native knowledge, and the linguistics of *those* languages. I really just have no words to describe how impressed I am.

EDIT3: What does it feel like to be better than everyone else?
