thought they were more interesting then first listen. Still probably not my favorite Post-Rock, because I prefer when Post-Rock artists try and bring something new to the table, but still nice. Though, I haven't heard enough of them yet. Maybe they do.

Bad Sector-Bia Head Box Switch

I quite like this so far. Heard some Bad Sector thing on a weird video game trailer of sorts, and thought the music sounded interesting. This definitely fits into interesting. Can't find it on YouTube, though.

I'd post a Spotify link, but my Spotify's being a freaking pain in the ass. Again.

In other words — and this is the rock solid principle on which the whole of the Corporation's Galaxy-wide success is founded — their fundamental design flaws are completely hidden by their superficial design flaws.

My nation **DOES NOT** reflect my political views. The interplanetary-level Federation government is libertarian only for realism purposes, and functions more like a confederation. Since it has such a large territory to manage, the federal bureaucracy can only provide the bare essentials efficiently, while most other decisions are devolved down to the planetary governments.

If you're reading this, you are an winrar.

What kind of music is Aphex Twin? I've heard that name but never actually listened to them, if I remember properly.
