They follow a defense doctrine known as *total defense*, designed to defend the country not only from physical military aggression, but also social, economic, and psychological damage, for example.

If the map in their Ilwiki is correct, their territorial claims correspond roughly to the modern Mozambique, even without the Southern half of Nyasaland.

I probably should've written this in the factbook, but it is named that because most native names for the region roughly translate to 'Land of the Dawn'

The name Ecradia is thought either to be:

- A corruption of the Ecradian words "Ecr" and "Adis". Depending on the translation, this phrase means either "Our Mother", "Our Tribe/People", or "Our Home".
- A derivation from the word for "homeland", *Echeradya*.

The Eight Republics is a collection of all states and nations of the Necunian ethnicity, united due to a perceived threat from their neighbor, the Capthorite Empire.

An Oligarchic state where the ultra-rich govern a nation of entrepreneurs and innovators. Just as corrupt, hedonistic and materialistic as you think, despite its progressive policies and emphasis on quality of life.

Although this is a bit of an oversimplification, they are basically a restored, republican, North Sea Empire that went on to become a major colonial power

OOC: any similarity that our map bears to any real world location is purely coincidental; the Necunian League exists in a fictional earth-like timeline.

Their government can be described as a "borderline stratocracy" due to the intertwined realms of civil and military administration. Citizens are strongly encouraged to either perform civil or military service.
