Casey Pickett is, in many ways, the very definition of an
inefficient leader. He allows the whims of the common
people to usurp the government and divides people
among meaningless racial lines, two types of inefficiency
which usually exist in opposition to one another, but are
combined in this case. He does have one redeeming
quality, however, in that he is willing to accept technol
even as it replaces organic life, and does not shun
technology simply because he does not understand or is
afraid of it.

"Ya know? There's a fair reason why everyone opposes to be assimilated to their fat fuckin' Borg, and it boils down to a simple point, and phrase I took from some friends of ours over in Los Santos. The point is that individuality rocks and collectivism can go kindly fuck off, and the phrase would be 'Every motherfucker looks out for itself'"

"President-General Jongdae has always kept a firm grip on his state to ensure the prolonged safety and prosperity of Cyriiskus, and for this he is most commendable. "I must say, I am somewhat impressed by the achievements of this self-proclaimed Messiah. He has served his people well in expanding their power and crushing their enemies, taking righteous vengeance against all who opposed and oppressed them in the past. I commend him for instating what is in effect an Israeli variant of the eternal Juche ideology, once again proving its superiority over all foes."

"An eternal president, why not just call yourself a dictator? If you hold all power I can only wonder why you go under such a title. Though I guess I the title king has gone a far way from what leader resides in Lowblood.

He seems like your run of the mil iron fist, I can only respect the Hope's he holds for his people and that seems to be all I can say other than the fact I'm interested in his word choice of "Eternal" I wonder if he sees himself as an immortal, or he seeks to achieve it."-The first king

Zen has shown himself to be a useful asset to the Greater Aquarian Empire and especially so with him able to ease the mind of my weary master. This pleases me greatly while leaving me with some envy but not enough to cause a fuss. Regardless, Zen has done well in keeping his inferiors in line and the opposition's mouths stuffed so progress can continue without resistance or delay. I wish him a long prosperous reign.

- In the underwater city, two roles have emerged from the City's ongoing civil war: the **City Monitors** who defend the peace and the **Red Caps** who fight against unjust systems. The city's infrastructure is crumbling under its own weight and kinship is snuffed by the paranoia of totalitarianism. Yet the people would be in for a surprise as their virtual overlord have died many years ago as the oppression continues under his name...
- Not an 1-1 exact replica of **Bioshock** lore and **Rapture City**. Only the city's atmosphere and setting is maintained.
