Also how is F7 server different then server of NS forums as a whole?

More informal and faster paced. Discord is basically just instant messaging.

Discord: Skype on PCP + Cocaine + Heroin, more or less.

This is probably the most accurate description of discord I've seen.

The red-white-yellow flag flutters over the Sejm; revolution over Lechia.
ALL SLAVS WILL BE FREE BENEATH THE BANNER OF LECH.

Featuring **fully industrial mega-Poland in 1941**, **ultranationalist irredentism from Warsaw**, and **ancient slavic revivalism**, this is probably my most stupid project to date.

[South Reinkalistan](#)'s first proper attempt at keeping a puppet alive without killing it. Yes, this means progress on SR will be even slower.

There is a strictly unofficial discord server for F7-related community matters.

South Reinkalistan is a massive, ecologically-diverse nation notable for its roving student militias and widespread hatred for the elderly. In the midst of a room-temperature cultural revolution that's lost its momentum, the Party carefully plans its next move. As the brittle bones of fragile empires begin to crack beneath their own weight, history's symphony reaches crescendo pitch. The future is all but certain.

Erm, let's keep all the discord drama offsite, lots of rumors going around m and it's best to avoid gossip

Back to cliches, when someone pours hours of effort into a GE&T storefront and a one liner responds with "We'll buy the entire stock"

The nice thing is that they do it despite there being the application in the OP. Another GE&T cliché: people who respond perfectly to a request even though the owner of the thread hasn't connected for some time or worse is just deactivated.

I always found those quite enjoyable to read.

Well, I always did like to read terrible oneliners on storefront threads -- it lovingly reminds me of how bad I used to be when it came to roleplaying.

I don't think I'm going to use NS stats...

Did someone bring up this cliché: 'nations with obviously edgy names' right? I'm guilty of this and pretty much all of the clichés people mentioned here.

So Iron Sky and Iron Sky: The Coming Race and all those wack conspiracy theories about Nazis setting up a colony on the Moon is what Mondbasis Achtzig revolves around. Also Wolfenstein. Edgy Nazi Space people with completely ridiculous explanation about how they came to power on the moon and stuff. At this point I have ideas that I have no idea how to execute it.

The trick is to have one nation to pour all of your serious into. I honestly don't know how people stay on top of puppets at all, I'm just not wired in such a way that I can split my focus like that.

There are some users rather famous for their collection of puppets, [Valentine Z](#) and [The Islands of Versilia](#) come to mind... I don't even know how they manage to keep track of all of them, but kudos regardless 🤔

A good 20 of them has a degree of lore of some sort, with varying degrees of WIP from "Actually developed" to "Just an autonomous region of Val Z, using NS Stats" to "WIP Purgatory."

The rest were... A mix of meme nations (did you know not a lot of you know that I own [Is That a JoJo Reference](#), or [You Have Yeed Your Last Haw?](#) Or that namesake [Warhammer 99999](#) where everything else but love and kindness is heresy), along with when I was crazy for Trading Cards.

I don't really do big time Cards now. I'm just that dude who is getting by himself, a Lone Wolf. Awoooo.
