Hellhammer - *Ready For Slaughter*

CVT Temp wrote:

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Another thing I like about Hera is in a lot of songs she has a unique singing style, as well. I think her high points is her style of singing and lyric writing, while musically she is good but not amazing. But for acoustic-oriented music it is definitely good, though there is other sounds in the background then just being acoustic music

I'm kind of breaking my streak of only listening to 90's music, but whatever.

Hera-Vertu Ekki Hissa

Apparently some of her songs are sung in Icelandic.

The singing style is making me think of something Spanish I've heard before, but with Icelandic lyrics.
