Banner, not flag.

And the Moon on the flag has nothing to do with Islam. Our main religion involves worshipping the Moon Goddess Luna, so it's an important part of our culture. That's why there's a crescent moon on the flag.

This nation does not represent my personal views or preferences.

On the flag there is a red circle behind the German eagle.

Basically the Axis if WW2 was a stalemate. Currently late 40's/early 50's. In a bit of a cold war except that no one has nuked anyone yet and no one wants to be the arse that does it first and give it away. Now featuring heavy doses of propaganda and military parades.

I dun use no NS stats, ya hear? I'm a bit more realistic than mandatory-helmet-wearing.
