Omigosh Amorphis covers so many genres. Depends on the album really. This is their genre progression:

death/doom -----> death metal -----> melodic death metal
-----> melodeath/folk -----> progressive metal ----->
progressive metal/melodeath

They are primarily melodeath though, although their purely prog metal albums are completely clean vocals. Recently, they've re-introduce melodeath vocals while keeping the prog metal style. Some of their early doom stuff is interesting, as is their folk material.

Melodic death, but quite good. And this is coming from *me* of all people. Amorphis are quite good and atmospheric.

Edit: Too slow.
