I'm still kind of on the edge about giving them a try because the vocals aren't a style I typically can like, but the music I rather enjoy from what I've heard. A similar deal with Neurosis. I'll probably just need to push both of them back to a time when I get low on music to go through and just need to force myself to get used to a vocal style I'm not used to.

I still haven't really listened to them....

It's kind of weird. I remember liking them back in the day, with whatever album it was my dad was listening to and had. This was before I was really into metal and back when I would listen to metal and be like "This is too noisy!", and go back to my mellow music....

I didn't even like Dub Trio's upbeat metal stuff and they are instrumental metal and not really that upbeat....Yeah, I've changed. Now I just like all types of music.
