I'll generally go with the Balkans or Central Europe though either Bosnia and Herzegovina or Slovenia feel intuitively right.

Somewhere from Israel? They were rocking a motto written in Hebrew for a while when their nation was still extremely work in progress and lurking around the F7 forums. Fun times, eh?

Antarctica?

This place is not a place of honor... no highly esteemed deed is commemorated here... nothing valued is here. What is here was dangerous and repulsive to us. The danger is in a particular location... it increases towards a center... the center of danger is here... of a particular size and shape, and below us. The danger is still present, in your time, as it was in ours. The danger is to the body, and it can kill. The form of the danger is an emanation of energy. The danger is unleashed only if you substantially disturb this place physically. This place is best shunned and left uninhabited.
