Knowing you have Covid and purposely trying to spread it to other people

I'd say this nation is about 85-90% representative to my beliefs. About the only difference between my nation and beliefs is that free markets are effective in a select few situations, and the compulsory organ harvesting is kind of screwed up

While neither the Wuhan Flu nor its associated virus SARS-CoV-2 do not exist in this world, spreading any other disease on purpose is considered to be intentionally causing grievous bodily harm. Minimum of 2 years imprisonment, maximum life with possibility of parole.
