What this thing is:

A nation obsessed with technology and progress populated by various types of mad and villainous scientists. They're not evil, of course, it's just the aesthetics of it. Well, some of them aren't scientists either - those less academically talented generally find their calling assisting their ~~master~~ employer with their scientific endeavours (hump or other physical deformity not mandatory).

The faces of this thing:

[Archbrain Turbina Vorlis](#)

[Vice Archbrain Metron Vektorin](#)

This nation or its characters are not intended to represent my social views, or political views in their entirety (although I am a supporter of technocracy)
