Venetian Snares-Bobo

Snooze. Why did I leave this one up again? I'm sorry Venetian Snares, but your repeated breakcore beat rhythms really do get old after so many albums...No idea how or why I listened through so much of this guy. Back then I seemed to just listen through a bunch of stuff for the sake of it. I'm going to be much more selective now and not just listen through a bunch of stuff by one guy just because.

Well, going through the rest of the electronic will be easy since I'm pretty much skipping over most of it...

Agh, Solar Fields is still good but I really don't feel like listening through 13 hours of music again to decide which ones I like....Hmm this might be interesting.

Wiley - Evolve Or Be Extinct

For some reason I have this fascination with grime...  
Actually, along with dancehall, grime was my first introduction to anything related to hip hop.

Death Grips-Birds

I've got a bluebird  
It might die  
It got wetted  
I stayed dry  
I'm not trying to use my mind  
I got that attitude at all times  
I've got this attitude at all times  
I got a black hat  
It might live  
It's got a black hat  
It goes big  
I had a bluebird, now it's dead

Like I was saying about Death Grips randomness...

Gnarls Barkley-Blind Mary

Another hip-hop album I like, though there's a lot of soul and such with it..and no rapping. I think partly why I love this album so much is because I heard it a LOT when I was younger, from my mom and such.

I didn't really see Dalek as something you'd listen to much, but they're certainly interesting.
