By the way, are you only allowed to kill one monkey per post?

You can only take out one per post, however. Killing more than one is a violation.

Monkey 2903 was found dead somewhere in Dallas after going missing.

Let's pretend you said Monkey 2897 because that's who we're on

Monkey 2896 follow the monkeys and typewriters scenario/theory, but instead of a typewriter it was a revolver, leading to the eventual outcome of BANG!

Don't post without waiting for at least two others to post first. Applying temporal correction...

Monkey 2898 sacrificed himself to bring back all of the monkeys 2899 killed.
