Which genre(s)? Female vocalists are awesome for extreme metal.

I'm not sure what you would call The Book of Knots but that particular song sounded metal. Then there's the [Stolen Babies](#) singer which their stuff is progressive metal of sorts and some rock. Also, the [Battle of Mice](#) singer I find to be quite impressive and that is Post-Metal/Sludge Metal. Then there's [Kylesa](#), which is various things but the song I know best is Sludge Metal

Interestingly enough Sludge Metal actually sounds kind of....sludgy. I

don't really know how to put it but it is a genre I can definitely identify better then some.

In other words all the impressive female vocalists I've found recently are doing metal singing.

Right now I'm not really listening to anything in particular.

I'll have a listen to those.

Sludge metal sounds like wet doom. ☐

When I first heard sludge I thought it could be described as dripping and oozing doom.

Does this black metal interest you as something towards what you enjoy?
