Meh, Daturah isn't bad but to me they sound too straightforward so their music is kinda losing my interest. They sound too much like a bunch of other post-rock bands. While musically it isn't really bad on the ears because it is instrumental, it just sounds too straightforward. Got so many others to go through I have other priorities

The Evpatoria Report-Eighteen Robins Road

For now, I shall just listen to music I've heard already, though.

Best Kamelot song.

My sister loves Kamelot. My favorites are probably Abandoned, Human Stain, and Love You To Death.

Forgot how awesome this song was. Figured it was time to go through this album. Talk about creative post-rock sounds.
