Ironically enough, their Monarchist America actually makes historical sense. Not very, but somewhat. The Prussian Scheme essentially worked, and Prince Henry, a minor Hohenzollern from Prussia, was put on the throne as a Constitutional Monarch, with George Washington becoming the President (I'm assuming that's close to a "Minister-President")

AN: Molecule-technology is the Base-Form for technologies such as infinite stretching of hypersuits, atom-sized sensors for invisible cloaks and holophones on hypersuits

They've rewritten world war I entirely, and somehow made it more of a clusterfuck. To the point where one of the sides sent messengers to both Japan and China, in a bid to have them assist in the war. (I am suddenly reminded of the Lytton report for some reason...)

That they seem to exist as a city-state, that's bigger on the inside. Very interesting concept.

Mobile Task Forces vary greatly in size, composition, and purpose. A battalion-strength combat-oriented task force trained to deal with highly aggressive anomalous entities may consist of hundreds of troops plus support personnel, vehicles, and equipment and can be deployed in whole or in part to deal with threats across the globe.

Empress Nemo is the last member of the Royal Family to be still alive, after Nemo's half-brother was killed in the Capital during The Rebellion.

Xanh may be economically and politically oppressive, but not so much socially. Have a look at these factbooks to give you an idea of the [civil rights](#) and [freedoms](#) in Xanh. Heck, it's even okay to drink, own firearms (albeit it's mandatory), smoke (albeit weed only), jaywalk (automobiles don't exist in Xanh), and swear.

So slavery is legal, but has semi-stringent restrictions placed on how it's carried out. There's actually a minimum wage for indentured servitude, and a maximum duration after which the servant in question must be released.

Still pretty garbage, but at least some attempt is made to mediate the whole system.

Despite their civilization emerging independently nowhere near Europe, many of their cities seemingly had French and Greek roots incorporated into their names as early as 1400 AD
