Monkey 6928 mixed bleach and vinegar, exposing themselves to toxic chlorine gas

People tend to assume that Entrance of the Gladiators by Julius Fučík is what that ever so famous circus clown theme is. And in a way, it is. Nobody would ever argue with you on this fact.

However, if you want to be an unlikable, pedantic jerk, the song actually known to be circus music would be a version composed for American woodwind bands (and later transcribed for fairground organs) titled Thunder and Blazes, published by Louis-Philippe Laurendeau.

Of course, this information is of absolutely no consequence to anyone.

A loose invasive monkey from another neighboring region tagged as 6927, possible cause of death is a poorly designed tranquilizer dart from an antique Chinese rifle, later dragged by amateur geeks into a science lab for experiments inside a furnace, turning the corpse into ashes, and then converted said material with synthetic recipes into a new source of aluminum. It had to be done for science.

A Pan-Asian survivalist nation who doesn't need international help when disaster strikes, and is only one nation away before total reunification of the continent.

Latest Ticks: G32 is renamed to G51 after western Asia falls into anarchy. The Academy is attempting to figure out a way of getting Japan into the Rebelian side.

Monkey 6923 was born from Monkeys 6924 and 6925. Before 6923 died of AIDS inherited from 6924, he bore Monkeys 6922, 6921, and 6920. They will be out to search for mates.

Monkey 6921 was sentenced to death 101 times for having AIDS and committing incest. This was made effective by a public stoning.

Monkey 6919 surprisingly died not from inherited AIDS (which it also gave to Monkey 6920), but from excessive consumption of toothpaste.

Monkey 6918 wash launched of a jet engine plan, into a cave, through a forest, and had its head stuck in a blender as it landed in a home, to which a cooking mother was turning on just as he landed in, so his entire head was blended into a lovely smoothie along side some fruits, to which monkey 6917 stole and drank.

I only made this to post on a topic.

6914 died of old age.

"At the point in time when bullets can pass through the interdimensional walls, when firepower takes up the entirety and eternity of space and time, all being stuck in a neverending life and death cycle as bullets recover and destroy their bodies in quick succession, no one able to think about anything but the sheer force of the bullets rapidly flying literally everywhere in the Materium, turning the Warp itself into nothing but a sea of semi-automatic weaponry, then there will be enough Dakka. Or atleast almost." - The Emperor.

Monkey 6909 was walking by the Puffa Puffa Rice factory when it had one if its frequent explosions, burying him in tons of Puffa Puffa Rice. He tried to eat his way out but he died of a diabetic coma before he could reach the surface.
