Cliché: getting ninja'd.

So I was in a thread, and I was about to do the AN, when Karazicu came in, but when I did him, Romanic Imperium ninja'd me.

Double ninja'd, what in the fuck?

A scenario where the Chinese people took over Malaya and replaces its Malay and indigenous tribal inhabitants. Under the technocratic authoritarianism of Lee Kuan Yew and his "Kongsi government", the quasi-apartheid state had grown into a global industrial behemoth equal to Korea and Japan. Maybe not a triple ninja, but I've seen a six-post ninja pileup.

Godulan Puppet #2, RPing as technologically advanced tribal society founded by mongols and vikings (and later with multiple other Asian and Native American cultures) motivated by an intrinsic devotion to the spirit of competition. They'll walk softly, talk softly, and make soothing noises as they stab you in the back and take your stuff... unless you're another Caleshan, whereupon they'll only stab you in the back *figuratively*!

Used NS stats: Population. That's it. Anything else not stated in the factbooks is not used.

Speaking of, people are taking turns bullying someone who posted such a thread in international incidents. Well, not bullying proper, but just mad banter lol.

Even if I'm not a commie (lore and policy-wise) I still took a shot anyways for the hell of it.

Yall remember when it seemed that at least once or twice a year there'd be a thread in moderation asking 'Why do you guys ban Nazi flags but allow communist flags when they killed millions of people too?'

At some point the mods just started locking those threads whenever they saw them, probably because:

A. The arguments always went in circles

B. Nazi symbolism isn't banned because of the death count of the Nazis or whatever, it's banned because the *site owner said so* and that ain't changing

New cliché: You suddenly remembering a thread you haven't posted on for a long time and deciding to revisit it only to find that it doesn't exist anymore

btw anyone know what happened to Rate the chosen factbook of AN?

It's like the people who make threads asking if this site should have unrestricted free speech on it and then it turns out that they just mean 'I want to be able to say whatever I want, including outright offensive and hateful crap, without getting dinged by the mods.'

Bonus points if it turns out that the user who made the thread has a history of getting dinged for falling foul of the rules and/or accuses everyone who disagrees with them as just wanting to suck up to the mods or something.

Perhaps this is a new cliché that we have never discussed: in "social" RPs, most users prefer to use either their political or military leaders. Few use ordinary people.

To be fair though, unless the situation specifically calls for it (for example, the RP is about "children attending school" or I don't know "tankery students blowing each other up for sport"), most people don't develop many characters that aren't in some way militarily or politically important. This is, exceptions notwithstanding, a first and foremost "political" worldbuilding/roleplaying forum after all.

No I'm pretty sure he means the threads you might find in [NationStates](#). Fundamentally F7 is a "reaction" forum, not necessarily a roleplaying forum.
