Monkey 1573, who was already dead, saw Mokey 1574 and was so terrified that
it died again.

Monkey 1708 is suprisingly not dead yet, despite being suicidal after being
sent to life in prison. Unfortunately, monkey 1572 killed monkey 1708 for
"lasting too long".

Monkey 1572 was then killed by monkey 1571 for killing his friend who was
coincidentally monkey 1708.

I do not exist, stop pretending I'm real. Accept that I am a mere illusion created
by some random internet loser trying to trick you.

Monkey 1571 split himself in two, thus creating Monkey 1570. However, the
splitting had fatal consequences, and both died a few hours later.

Monkey 1568 fought for the English during the Battle of Battle of San Juan de Ulúa.

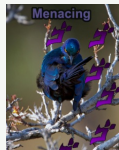

His cannon ran out of ammunition so his fellow crew stuffed Monkey 1568 into the cannon and blew him towards the Spanish ships.

Monkey 1568 was never seen or heard from ever again.

Moke 1567 decided to reject his humanity, the only problem is, he was already a moke. The resulting paradox killed him and another moke, Moke 1624, who had escaped prosecution by the Spanish Inquisition.
