Red Lake does not necessarily represent my personal views. I promise I'll make a tech factbook eventually. NS stats didn't respect the wildlife and got mauled. Language is Gothic.

Oh, for sure, but people love when they can argue pointlessly.

It's why I butted out of the Matter of Pride thread for the most part; didn't think I'd be getting anywhere with a nation called "The Proud Transphobe"

See this is *another* reason why I don't post in NSG anymore.

Moderators allow homophobes and transphobes to run rampant on the boards and yet if I (or anyone else here who is LGBT+) tells them to fuck off, we'll be the ones to get in trouble.

Yeah sure you can argue 'well that's rude' but why should we have to be nice or polite to bigots who wish we didn't exist? That goes for all types of bigotry, yknow? LGBTphobes, racists, sexists, etc.

From what I see they seem most active in warning for flaming, and most people are more upset at insults they feel are directed towards them.

Not to AFOB (Not even sure that's a thing here)

But I can confirm that that doesn't lead to any good shit for the forum.

And also what sort of bs School bullying policy shit is the "We'll punish you for defending yourself against this bigot who wishes you were dead, how dare you be so rude."

That's like, some A tier liberal moderate stuff... another reason for me to stay away from NSG I guess.

Also seems like the mods have a bit of issues regarding transparency from what little I know, like maybe ranging from a foggy window to a brick wall, I don't know, haven't been here for too long to be sure.

has been posting on internet forums since she was 10 years old (and remember - I'm turning 26 this month, so I have quite some years of experience with forums), this is honestly one of the more transparent forums when it comes to moderation tbh.

Like I said, it's not perfect and I don't think anyone (except for maybe weirdos) to expect 100% total transparency for moderation (cause that would probably entail the mods having to make all their internal moderation discussion threads about stuff like 'Hey this rule isn't really working out, maybe we should update it' or 'This player is constantly causing trouble and getting banned and DEATED, maybe we should have talks on whether or not they should even be allowed to be here' be publicly viewable) but compared to some other boards I've been on? Yeah this is pretty good tbh.

I was on a Zoo Tycoon thread I think at around the age but allowed younger, I think it was ages ago.

I got banned for legit BS, it ended, got banned again for banned evasion like immediately.

It soured my thoughts on Mods till this day to be honest.
