Aging.

#### The Kingdom of Tetchland

*An almost-absolute Catholic monarchy that seceded from Sweden during the Reformation. It's something of a Western Hong Kong (pre-2019), being a small, densely-populated urban region that enjoys wide economic freedoms, modern amenities, and wealth, but holds a strong dedication to tradition with regards to religion, military, and national pride. It's on a small, fictional archipelago halfway between Sweden and Poland.*
