Hmm....what to listen to next?...

Might as well get some The Mars Volta out of the way. I can't really handle his singing most of the time so I'll probably skip some...

Already got rid of one from briefly listening to it...

So, I came from listening to 16 albums in one day to today where I'll probably barely listen to anything before going to bed...

I also slept for pretty much 11 hours, so that doesn't help.
