NS users not being able to read is certainly a bit cliché at this point. You would think people who can use the internet would be at least somewhat literate but apparently not.

That's often why it's good to keep it Semi-Open, or to wait for applications first as well.

I like the many of you here, I really do! ♥◻ However... At times, there has to be a set of rules in a RP. 😊

People asking mods to release names that are either currently unavailable for release (due to it not having been 5 years since the original nation CTed) or never will be released (due to either having had more than 500 million population or marked as soiled) so they can create a nation with that name.

Another cliché: Dunking on bad/rude RPers makes you look cool.

This also does not follow, as it just turns into 'BUT SOMEBODY IS WRONG ON THE INTERNET!'

Been caught up in this a few times m'self, actually. Sometimes I just act the fool for some reason.

Though this is more of a misconception than a cliché... hmm

Godulan Puppet #2, RPing as technologically advanced tribal society founded by mongols and vikings (and later with multiple other Asian and Native American cultures) motivated by an intrinsic devotion to the spirit of competition. They'll walk softly, talk softly, and make soothing noises as they stab you in the back and take your stuff... unless you're another Caleshan, whereupon they'll only stab you in the back *figuratively*!

Used NS stats: Population. That's it. Anything else not stated in the factbooks is not used.

An alternative to that problem is to create a nation in some different language besides English.

[The Pacific States of America](#) was already taken; reserved and no factbooks about it. [Pacific States of America](#) was also taken. And so I resorted to creating my own Pacific States of America, name written in Romanized Katakana instead. No, I don't speak Japanese.

Wait...

Menzoberranzan: City of Spiders
Kanji: Japanese
Japanese: Anime
Anime: Spider Women
Spider Women: Menzoberranzan
Menzoberranzan: City of *Spider Women*

I know exactly what I'm gonna do with this.

But that is actually quite simple... Especially if your first language is not English?

But, I do agree that most (newer) nations are very English title based. 🤔

Isn't Hoi4 that game where the playerbase is so fucking insufferable and they love to vandalize Wikipedia articles about people who appear in the game to add references to the game because they're like 14 years old and, you know, fucking idiots like 14 year olds universally are?

That's a Hoi4 mod, the base game is an okay ww2 era war simulator, but a lot of NS RPer seem to forget modern warfare has evolved a lot since then
