Myrath - Merciless Times

Wow. This is excellent. Progressive metal from Tunisia with tones of Arabic/middle eastern folk influence. Makes me want to headbang in the Arabian desert. Catchy too.

I fucking love Myrath. Have you heard Al-Namrood? They're a pretty good Saudi folk/black metal outfit.

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
