Where Strides The Behemoth, Mastodon.

I'm so glad I have this album, it just never gets old.

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.

Nirvana - Breed.  
Learning it on guitar right now, not particularly the best idea I've had given that I think my wrist is probably sprained.

Florence and the Machine-Seven Devils.

Personally has probably become one of, if not my favorite Florence and the Machine song. And it's so damn fitting for Game of Thrones, and I'm glad they used it on the trailer.
