Hymn I, Wolf and Fear, Ulver.

owww my ears

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.

I see Mastodon being suggested all the time to listen to, and see people listening to them all the time. I think I heard one Mastodon song and thought they weren't bad, but I don't remember. My dad was listening to one of their songs or something, checking it out himself.

Nothing at the moment (☐), so I need to turn something on just to say I'm listening to something.
