The Curse of Izanagi, Sigh.

I like how it starts out all ridiculous over the top traditional black metal, then for the chorus it's got strings and church bells and trumpets.

Such a fun band.

I've only listened to *In Somniphobia* atm. So I'll give that one a go.

I think they perfected their sound on God is Good/Pilgrimage, so I'm not sad to see them change their sound on their new release.

I think the EP version and the album version differ - i was listening to The Curse of Izanagi EP.

Europe Endless, Kraftwerk.

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.
