Monkey 85, while attempting to devise a method of teleportation, was sucked into an electric toothbrush and was killed by the vibrating parts.

Alphonse tried to fix the electric toothbrush that killed Monkey 85. Unfortunately - and as usual - he made it worse instead of better. It escaped from his workshop and went on a murderous rampage that eventually killed Monkey 83.

Monkey 82 realized bisexuals are technically sexist, because they are not attracted to trans people, if they did, they would be pansexuals. This is considered forbidden knowledge; he was taken by god and is now living(?) a happy afterlife in heaven

Monkey 77 found a magic lamp and called upon the genie of that lamp to grant it the power to teleport anywhere with a thought. It did not quite understand why the genie's response was raucous laughter as the wish was granted. But as monkey 77 stepped from the temple in which it had found the magic lamp, it shaded its eyes in the daytime glare and thought: 'Agh, the sun is so bri—'

Godulan Puppet #2, RPing as technologically advanced tribal society founded by mongols and vikings (and later with multiple other Asian and Native American cultures) motivated by an intrinsic devotion to the spirit of competition. They'll walk softly, talk softly, and make soothing noises as they stab you in the back and take your stuff... unless you're another Caleshan, whereupon they'll only stab you in the back *figuratively*!

Used NS stats: Population. That's it. Anything else not stated in the factbooks is not used.
