Man, having began his trip in Mcxeta, then crosses the border into [Abkhaz SSR](#), and convinces them to start another invasion of Abkhaz SSR. However, all the people there are controlled by [Abkhaz user]. Man decides to lead the way by driving at 120 m/s down an open road, and the [Abkhaz SSR](#) members follow him in their own vehicles. They take down many of the mind-controlled soldiers, while breaking [Abkhaz user]'s control over many more so that they join [Abkhaz SSR](#) or become neutral, given how brutally [Abkhaz user] runs the country.

Soon, Man arrives at a special facility, where it is rumored that the foundation of this mind-control exists. Within this facility, they encounter numerous nut1n-7804 robots, and defeat all of them. They reach the top, and a horrible, deafening screech is heard; however, Miku and her comrades prevent that from harming Man. With that, [Abkhaz-Birth] has awakened; the initial chord salute happens, this time from lower-leveled [Abkhaz SSR](#) members.

It turns out the weaker Man, Meiko and Miku are evil clones created by [Abkhaz user], and that the 10^15 HP value is just an illusion, belonging to a large part of Abkhazian land. Soon, another party member joins **მეგობარი** - one who's not a cyborg or unusually talented in music, and who somehow reminds Miku of her mother. She first decides to become a cyborg, as that kind of technology freed her from evil forces; this gives her extremely high stats.

Meiko: "Aila? Is that you?"

Aila: "I've seen the worst of what you users are capable of, and how you've ruined this world for everyone. It's time to end this."

Man: "Hehehehehehehehehe! This is incredible! I guess I'll sacrifice my life to break the users' control over us..."

Man pushes a button on a remote, and this triggers a self-destruct on one of the death robots. This causes a chain reaction that obliterates every single death robot, the "newest creation", and the entire warehouse, as well as dealing immense damage to [Abkhaz-Birth] and one-shotting the most recent version of [Abkhaz user]. Man also dies in the explosion, of course, and there is no evidence he ever existed after that.

A  division then arrives at the warehouse again, led by Aila.

Aila: It won't be so easy for you either, [Abkhaz user]!

Aila then activates a psychostasis module, causing all status effects, including time reversal, to be nullified throughout the entire warehouse for the next 6 hours. The bullets shot into Previous Man travel back and rupture the guns of the Abkhazian soldiers who fired them, and some of the soldiers are killed. While Previous Man stays partially disintegrated, one of the bullets activates the self-destruct sequence, and the entire warehouse blows up with it. Man dies, and Aila is also severely hurt by the explosion.

Aila then leaves with Miku and the soldiers in her shuttle before anything else can happen, ready to plan the next action against [Abkhaz-Birth] after retreating to Mcxeta, where [Abkhaz user] is powerless. A homing missile is fired by a group of  soldiers and explodes on [Abkhaz-Birth], doing another 190325 damage.

[Show Spoiler](#)

[Abkhaz user] then respawns in Soçi, Krasnodar, as that was set as his spawn point by Aila beforehand.
