It looks like they're set in the Fallout universe, in the Fallout 4 area of the Commonwealth, and the nation itself was built following a Minutemen victory in the war against the Institute. They appear to have tense relations with the Brotherhood, who view them as enemies for harbouring synths, but they do not appear to be currently in open combat following the destruction of the Institute.

Prior to becoming the Kingdom of South Reinkalistan, the country was known as Reinkalistan. It was later partitioned into North and South Reinkalistan, where the South became a communist dictatorship while the monarchy continued to exist in the North until a democratic coup. The current South Reinkalistani king spent much of his young life in a Communist Slave Labor camp after being kidnapped and extradited to the South

They're a quite nation of feisty little cats. But seriously, the all uppercase letters in much of their factbooks makes them appear aggressive.

They have a whopping total of 0 WMDs

Kabzeel, meaning "God's Gathering" in hebrew, is a *federal, dominant-party, socialist(non-marxist)constitutional monarchy* with a rich Jewish heritage dating back to it's creation in 845 CE. Today, it spans almost the entirety of Eastern Europe and is the largest predominately Jewish and female-led state in the world as it follows the doctrine of "*Royal Socialism*", a paternalistic conservative ideology with an emphasis on socialization, social ownership, and conservative feminism. Its relationship with Israel is noticeably rocky, but this is due to the ongoing complications between Kabzeelian and Israeli Zionism.

Their political system is an invented branch of Monarchism, known as "Royal Socialism". In this system, the Monarch emphasizes on a state-planned economy.

Basically, they're Portuguese Rhodesia.

Partially inspired by the Third Odyssey mod for EU4, this nation is essentially a Byzantine successor state in South America that has fused together Ancient Greek Religion with Greek Orthodox Christianity. It mixes the aesthetic of Byzantium and Ancient Greece, with very open and liberal social values but with an Imperial Monarchy. NS stats are referenced but are not strictly followed to a T.

Arandian society is very different from the rest of the world; they favor stoicism and shun excess, though embrace progressive values such as LGBTQ rights.

The nuclear holocaust in their timeline was caused by a misreading of detection equipment, which interpreted a solar storm as hundreds of missile launch detections.

They don't recognize gay people, and instead forcefully change their gender so the gender they once liked becomes the opposite gender... Yikes.
