Ah, so someone watched Kurzgesagt and decided he didn't go far enough with his calendar system.

NS Stats and Policies have been drained for their Thaumaturgic Energy, and thus only factbooks are canon for this nation.

Seriously, I put a lot of work into them, don't let that be for nothing

In a nutshell: A flawed but ultimately well-intentioned libertarian socialist federation set in a fantastical sorta-post-apocalyptic world inspired by New Weird and Cassette Futurism, on a rugged and only partially tamed continent of scattered ancient ruins, bustling fortress-cities, beautiful but alien wilderness, and above all, boundless hope and opportunity for those willing to fight for it.
