German Empire / Deutsches Kaiserreich

Following the independence of the CSA, the world fell into Great Depression 2. Germany went into chaos, and after, a successor to the DNVP came in to power in Germany, renaming the country from the Federal Republic of Germany to the Imperial State of Germany. Their first goal was to retake colonies, however colonialism was looked down upon, yet they still wanted to do it. After taking back some colonies, the UK and France told Germany to withdraw within 6 months. They didn't, and declared, but Germany won, and regained all of their former colonies, along with the 2 Congos and some more. Furthermore, they

renamed the official name of the country to the German Empire, and made the flag the Kaiserreich. This nation doesn't represent my views.

The Jacobin destruction of the Sistine Chapel causes the papacy to be moved to Vienna, and become incorporated directly into the House of Habsburg and Austrian politics

And by some series of not yet spelled out so consider it alt-hist wizardry, the Archduchy of Austria becomes a semi-democratic federation in order to keep the nation stable, while the monarchy still retains significant executive authority
