Not a crime in the United States, if only because we don't have jurisdiction in Syria.

Being a member of a PMC fighting in an active warzone against the will of the government?

Depends on your citizenship status and aggravating factors, as well as where you've gotten it from. If not from regulated sources, instant trip to rehab, we don't know what's in there. From legal sources? If the only crime is simply using, it's no crime, however reselling Sorci branded LSD is a capital offence.

Possession of 15 kilos of illegally obtained methamphetamine within the bounds of a nationally owned nature preserve with intent to distribute to the local wildlife?

Arms Dealing, Blockade Running, Black Market Procurement, Mercenary Contracting. We get you what you want, where you want it, for a price. We also chose to not sign anti-piracy laws for a reason, it'd be a shame if your cargo went missing.

Nothing, only incitement of violent crimes or violent rebellion may lead to sanctions.

That usually wouldn't technically be a crime since there are no taxes on imports EXCEPT for a few countries, such as China or Israel, or banned goods, such as hard drugs and pornography, in which case, you could face severe fines, usually amounting to between 2.5 and 3 times the value of the smuggled goods.

Drinking in public.
