Great band

Godspeed You! Black Emperor - Mladic

They're pretty good, yeah.

Godspeed You! Black Emperor is an all-time favorite of mine, and so is that particular album.

I got a feeling they might've been your kind of thing, judging from what you've been listening to.

Surprised that album's an all time favourite for you though. Although I love Mladic the album as a whole is probably my least favourite by them, Slow Riot included. Actually, I think each of their releases is slightly weaker than the last, though LYSF and Yanqui are about the same.

I dunno, I think they're all so good from what I remember (Haven't listened to them recently) that I have a hard time picking favorites of their albums.

The only deathstep I've listened to was death metal dubstep.

I prefer it over dubstep, because deathstep has such heavy bass and a darker atmosphere.

Here's a much better example of deathstep for you. This one is electronic too.
