The wackier side of Leskya's universe: A philosophically-charged pocket dimension located at the crossroad between all worlds and times, governed by an archeo-futuristic corrupted body-without-organs. Home of liminal dimensions, eldritch abominations and absurdist wildlife, obnoxious preternatural stoners, and unusual cloud formations that mysteriously vanish those who stray too far from dirt paths.

I don't know what I just read but it sounds cool
