Now my dishwasher is done running, so all I hear is the sound of my ceiling fan. I should really put some music on.

The next thread of this type should have a change in the title, if you ask me. "What music are you listening to right now?" as a base title should help against nonsensical posts about people listening to dogs barking and similar stupidity.

I mean, or you could just spare us the headache of dealing with the same stupid fucking jokes all the damn time. Can't you just have some internet etiquette and just answer the question the way you know you're intended to?

I really like music. Alot.

There was no specified answer requested, and I was not joking. I suggest saying what you're listening to next time that you post on here, by the way.

Read the fucking subforum title. "Arts & Fiction". Does listening to your fucking ceiling fan fall under that? No, it doesn't, so drop the childish attitude no one likes. It's fucking annoying.
