Note: Before 2480, Olwe was called Athan. If you see this word in a thread, it's because you mentioned a year incompatible with Olwe in that thread but still made it open to all techs and therefore are allowing Athan's magic.

Reading, and posting. Good way to listen to music when you don't really feel like doing anything else, and you're actually in the mood to read a damned book you bought months ago.

Boris-GALAXIANS

Even if I don't really care for everything Boris does, I give them props for their constantly changed sounds.

All 3 of their albums released in 2011, from the bits I've heard, are like completely different from each other.

everyone knows that quote, "I know not what weapons World War Three will be fought, but World War Four will be fought with sticks and stones," but in a way it's optimistic and inspiring because it suggests that even after destroying civilization and returning to the stone age we'll still be sufficiently globalized and bellicose to have another world war right then and there
