"Who do we have here? Josephus? Strong name. Never heard of him, mind you, but a strong name nonetheless. (Chuckles) And for what it's worth, his elegantly restrained taste in fashion does absolute wonders. Sure, halfway decent charisma can take you around the block if you catch my drift, but a smart well-tailored suit like Schmidt's? That'll take you around the world. But anyways, I digress. I'll admit, my sentiment towards royalty generally is less than positive, but I've really gotta hand it to Schmidt...his upbringing was pretty damn impressive.

Fighting for liberation from such a young age requires a certain level of recklessness, yet at the same time...a certain level of sensibility. It's a responsibility that changes people...for better or for worse. And while I can't tell for certain how it might have changed Schmidt at this point, only time will tell."

"All seriousness aside I really can't say a whole lot with respect to his political views, since I honestly know very little about them. What else is there really to say? King Josephus is a very secretive man, as I'd expect him to be. Obviously the whole platform of pellucid homophobia is a bit of a fly in the ointment so to speak, but I really can't be offended when he's so civil about the topic. Oh well...I just chalk it up down to...I don't know...a diplomatic occupational hazard. And speaking of occupational hazards...what a save with that whole car bomb incident! A few steps to the left and they'd be shovelling his ashes off the cold hard ground. Certainly has no shortage of luck that's for sure, so all I can really do is wish him continued luck."

"One who rose from shattered past can be only so strong and so broken, but to form a pleasant public face is also a desirable talent among those who wish to rule. From an aesthetical standpoint, I am very much fascinated by this enigmatic nation and its political atmosphere. Lack of colors constitutes a new scheme of colors -- that is what they said about Gaia's revival of the Silent Twenties. But that is not my point, and I do not limit my assessment of this gentleman solely on his well-formed demeanor. A technocrat is a positive in our book and I am taking notes on his past career, which was highly involved with bureaucracy as well as a sector vital to a nation's livelihood. Moreover, I find his economic views at least understandable. I am not exactly an enthusiast of a completely free market myself. There are times a nation ought to secure its public interests, are there not?"

"This man possesses quite an extraordinary mindset and he furthers his genius by politics rather than allowing politics to get into the way of his sciences, and by this means he has turned his nation around into quite a powerhouse. Nonetheless, it takes much to keep a strong grasp on one's power... and with a turbulent and sensitive mind behind his serene face, I reserve my concerns for Mr. Abigail and his struggle to keep Convallaria under his ambitions and designs. May dreams stand unbroken, or at least mildly shattered but not collapsing."

"However, there is one more thing I will need to remark upon, as it is completely a part of my identity, is the lack of mention in military or police affairs in his nation and in his own records. I am not exactly aware how he treats the international politics, or even domestic law enforcement, seeing from how organized crime is still an issue."

Respectfully yours, with due regards -- His Excellency, Kazimir Ivanovich Miroslavsky

I like that notion of defending yourself from the harm around you, but if there is nothing to harm, then you can simply sheathe your blade and all. "There's only one word I can use to describe my opinion of Holly: strange. On one hand, she appears kind, nice, and friendly overall. Hell, she was granted the powers of a god and then used it to not make a world of hellish torture or anything like that - but simply a garden of her own kind. But, I don't know. She's over 100,000,000,000,000 universes old and she spent the majority of those times... alone. Even Father God - a being who has always existed - eventually created man to frolic around in his own domain. Well, she does have animals and fairies, but they're extensions of her rather than beings with their own souls. And she only just-recently opened up to the world? I'm not saying something fishy is going on behind her closed doors, but a part of me cannot trust her. How can a human-like being survive for so long without contact? I guess most of her contact was death and destruction, but there's got to be someone good she met before Valentine Z in her mind-boggling long existence. But, I'm probably wrong about all of this. I wish you a fair eternity regardless."
