"You seem cultured enough- given your absolutely detestable adherence to socialistic thought, it makes sense that you'd make up for it with a veneer of civilized bearings. As in all states which are ruled over by democratic principles, your grasp on power is no more tenable than your popularity with the people. You, of course are no exception- brought to power more through looks and words than action and intelligence, you rely on the unknowing masses to lap up your lies like salmon to the slaughter. The fact that they elect you, through inane processes too complicated for them to comprehend, acts merely as vapid justification for your eradication of religion and traditional life- the time-tested ways which have ensured your peoples' survival, you betray for personal power."

Official Judgement of [The Overseers](#):

Judgement: Hawkeye is Degenerate
Punishment: Impalement

"We find it unnerving on the how centered Cala Windham Hawkeye is around so-called 'progressive ideas' and 'science'. His opposition to maintaining an orderly and traditional society is alone enough to suffice for execution. Science will never bring a successful society, it will only bring laziness, chaos and degeneracy. And he's obsession with competition is beyond what we deem natural. We are disgruntled at his market-obsessed personality and everything else about him, though he does not really stand out among other, more heretical, leaders. We would happily exterminate him and his beastly tribe of science-obsessed animals. Preferably by vertical impalement."

[Their Supremacy, The Overseers](#)

[VlaRiSsia](#)'s oldest puppet who was revived out of boredom. NS stats were accused of heresy and burned at the stake.

The Tilminese Federation is a totalitarian fascist theocracy ruled with an iron fist by [The Overseers](#), a fanatical organization of theocratic fundamentalists seeking to eradicate 'modern degeneracy'. Has scenic architecture, no light pollution, quiet streets and public executions for the smallest crimes. On and one in every four Tilminese has died from starvation, disease, execution, forced labor, and genocide ever since the Overseers have taken power but that's not too important.

For every reply deemed by The Overseers as 'boring', they will massacre and raze a village. Number of villages razed: 21

"Dude is anti-science? Like ol' Pol Pot? Good... very awesome! Cuz we can get plasma guns and scare his goons till they shit themselves, before we run them over. It would be easy to use tech advantage and finally plunder his terrorist religious organization squeaky clean, free the slaves and make the territories a part of free and prosperous Skyhooked. Trust me, no one gonna shed a tear after hearing of his demise, when we are done... I hope, no world powers have any ideas of protecting them... because if they do, there might be an anarchist revolution for them to face." -Shawn Bjornson
