"Ambrosia has always intrigued me. Despite her high position as the president of her nation, I admire that she still stays in her humbled, little apartment. She has stayed down-to-earth despite all her power, and I admire that quality. I've also learnt she loves board games! Hey, my lovely wife Margo loves a game, too! Maybe they can both meet and have fun sometime?"

On to her political views, I like that she attempts to forge relations, both economic and strategic, with major powers of her region. That is a very great move even I have employed for my own country. It helps us remain prosperous and secure. I see she is attempting to transition her country into a direct democracy. I must say, although it is ideal, it is a very difficult idea to implement, but I wish her good luck in all her endeavours."

But meanwhile, it is curious that he has also decided to scrap democracy in his nation. Nobody's view is more or less important than the other, and while the ways of the old world might have sufficed to survive in the strife in turmoil of that day, that day is long since passed into the haze of history. If you spend so much time looking back, you won't see the troubles ahead. Seems to me that it would be more effective in the long run. "The wasted potential I sense in these two enchantresses is nearly beyond words. The extent of their use of their magical powers was when they managed to secure a meager victory for their nation in one of countless planetary wars. Am I to be impressed? And even when given the opportunity to establish a global empire under their rule, they elected for the "peaceful" way instead and confined their authority to the lands already under their control. It perplexes, more still amazes me how it seems that the most vapid beings are most often the ones that are endowed with some sort of supernatural abilities or powers. If only such abilities were granted to those who would be capable of wielding them in actually productive manners, not wasted on mere children. Sylvia is as useless as her sister, and I find it quite difficult to differentiate the two. Clearly intelligence is not a distinguishing mark between them. Politics or basic governance seems to be beyond them as well. And rather than competently ruling their nation, as is to be expected with heads of state, these twins prefer to spend their time indulging in sweets or other luxuries while their "perfect world" stagnates. And to think what worthy men could have done with such powers. It is indeed a shame they were wasted upon these two abject failures."

Cala... *Windham Hawkeye*? That's quite the name! Anyway...

I must say, I like his ability to get stuff done, as well as his distaste for junk food. Compare that with Mechyrdia, where both poverty and obesity are epidemic, and they go hand-in-hand thanks to the junk food produced by Mechyrdian capitalism. Also, he's an engineer! I wish I had time to learn that sort of field, but I'm a bit busy with managing my khanate. I would ask my programmers to make a neural net AI like his Wotan, but, to be completely honest, I prefer a more personal touch to ruling.

His creative approach to war reminds me of my own, in a way. I won't say exactly how, but my khanate is certainly weakening Mechyrdia, softening them up for an event that I really don't want to spoil for anyone.

I will admit, I don't care much for his socially progressive attitude. I don't care much against it, either. Neutral on that aspect of him

To conclude, my opinion of this Windham is, for the most part, quite positive.

these ridiculous archaic power structures, after all, they're the only thing separating him from the masses he keeps under his heel. He attacks our way of life as 'malevolent' and 'lawless', but I must ask, what gives him the right to rule? Why does he sit on his throne with all his hoarded riches while the common man starves on the street? He attacks us for violence, but neglects to mention that the system he upholds was established by violence and is upheld through violence. He only rules because his ancestors were better at violence than their enemies, and violence will continue for as long as he and his ilk cling to their ill-gotten gains."

Also, have you seen a single successful anarchist society? Let me remind you, anarchist Catalonia, the Ukrainian Black Army, the Syrian Rojava. All of them have failed horribly, with untold suffering and misery for those who had to live in it. Only authoritarianism can lead a successful socialist nation through its first turbulent years. "For someone ruling such a powerful nation, you really are a boor. Such boring and safe beliefs, something that a child could come up with. It's far more entertaining to go as far to the extreme as you possibly can. This may result in your country's destruction, but I ask you: Why should I care?"

What happens when you cross anime powers and overpowered leaders with furies, all written by a bored Homestuck fan with too much time? Well, you get Rumei. A multiethnic, FT republic with both might and magic that let it conquer the entire Orion Arm.

A 7.6 (this is probably outdated but I can't do the calculations rn) (Tier 9, Level 6, Type 9) according to [this index](#).

Come to The Orion, we got [CULTURE](#) and [FURRIES](#)

Show Recommendation: Cobra Kai. It is very, very good.

IC Name: Roman Republic, or simply Rome (Rumei). Occasionally called the Ignisian Republic. Current year is 2697.
