I have moved this nation to the [Silver Commonwealth](#), just like Frievoik did with Asmundia, as too many people seemed to confuse the old name with new one.

The color yellow and surrender. It's a little too zoomed in.

Sorry for the long wait, but my new nation is still a slow work in progress. Completely new map than this one has.

Things to keep in mind:

- This isn't a single nation, but a whole planet full of many nations. I will usually reference a certain nation when posting.
- The flag being used is just to represent that it is a planet, it is not used at all in the 'canon', as there is no one flag for the planet. Instead I chose to just use an image of the planet.
- I've referenced the prequels 124 times on F7.

Detailed factbooks? In this nation? You speak of dreams.

This nation uses NS stats. Imagine a moderately sized, modern, nonmagical jungle nation that is forever neutral. Previous posts regarding this nation's lore should be ignored. Those posts are more relevant to a new nation I'm "working" on.
