*Impossible is just a big word thrown around by small men who find it easier to live in the world they've been given than to explore the power they have to change it. Impossible is not a fact. It's an opinion. Impossible is not a declaration. It's a dare. Impossible is potential. Impossible is temporary. Impossible is nothing.*

Autechre-Fleure

Only got ambient type of stuff left and electronic to catch up with now. These guys have 12 albums...and so does another electronic one I have, so those I'll probably be plowing through much quicker. Except this album and a few others by them. Also a Solar Fields album because this album I'm currently listening to and one by Solar Fields are the only ones of 2013 I need to re-listen to to decide what I want to rate them.

All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
