You can't decide between the right-wing corporate party and the far-left Communist party? That's quite the pair of parties to be unable to decide between.

Or are you referring to the Progressive-Conservative Party/Flat Earth Party?

Social Democrat Hunchakian Party or the New Way Alliance.

We do not use NS Stats, policies, or otherwise. Please only judge us by what is in our factbooks.

An alternate history version of China in which the alliance between the Kuomintang and the Communist Party never broke down, eventually resulting in a federalized, democratic China. Though one of the world's strongest economies and an emerging superpower, China continues to suffer from high rates of income inequality, an overreaching and sometimes corrupt government, and cultural issues that continue to persist despite the efforts of many reformers over the decades. Most factbooks are still an active WIP.
