Technically it is not cannibalism since TN is not human.

Welcome to this diesel/atompunk place we call "Vuran". Here, tritium runs through tungsten pipes under every building, and great factories pump black, radioactive smog into the air. Great beasts of steel; be they tanks or spaceships, are a common sight here, guzzling diesel and neurotoxic tripropellant, respectively.

Dieselpunk is suck a cool vibe !!!!!

Once I was a -punk nation too, but then I bought a book by Mark Maslin and began watching films made by a guy who hates the anime industry for how young women are depicted.
