Monkey 34 died of "Bungee Jumping" because that is a cause of death in NS apparently

I'd say this nation is about 85-90% representative to my beliefs

About the only difference between my nation and beliefs is that free markets are effective in a select few situations, and the compulsory organ harvesting is kind of screwed up

I'm probably in the minority, but I actually pay more attention to in game stats than to roleplay

Monkey 19 found a set of tarot cards that actually worked and could alter reality. It attempted to do a reading, but wound up placing the Death Card as his center card. When next he looked up, the Grim Reaper waved hello with his scythe.
