Not a crime. A disease that needs to be culled. Quarantine of affected areas. Media blackout. Deployment of kill-teams. Destruction of all those inflicted and/or affected. Records will be sealed for 30+ yrs following conclusion of incident.

Breeding an army of attack bears and using them to terrorize several small communities in YN isolated areas.

My travels take me many places, from the scorching sands to the cold, dark vacuum of space. But I always return to my friends and family at The Pub.

Since we are technically a *slave state*, supervisors who don't pay their workers don't get any punishment(workers are provided rations and other necessities in accordance to their position in the racial hierarchy and the amount of labor they put in, as currency does not exist). If anything, providing currency compensation is punishable by death since it would require smuggling to obtain what is considered "money".
